**STUDENT DRUG TESTING**

**I. Alcohol and Drug Free Schools:** Student safety is of paramount concern to the Board. Students under the influence of alcohol, drugs, or controlled substances are a serious risk to themselves and to others. The Board hereby commits itself to a continuing good faith effort to maintain an alcohol and drug-free school.

The reasons for this policy are:

1. To educate students as to the serious physical, mental, and emotional harm caused by illegal drug use.
2. To alert students with possible substance abuse problems to the potential harms that drug use poses for their physical, mental, and emotional well-being.
3. To ensure that students adhere to an education that bars the intake of illegal and performance-enhancing drugs.
4. To prevent injury, illness, and harm for students that may arise as a result from illegal and performance-enhancing drug use.
5. To offer students education and school activities free of the effects of illegal and performance-enhancing drug use.

While on school property or engaged in school activities, students of the District shall not manufacture, use, possess, sell, distribute, or be under the influence of drugs, controlled substances, or alcohol (including low-alcohol beer). Under the influence of alcohol shall be a blood or breath alcohol concentration of .08 or more at the time of the test. When it is evident that a student is under the influence of “drugs” as defined in this policy, the student shall not be allowed on school property and/or shall not be allowed to participate in school activities.

When there is reasonable suspicion to believe a student has taken or is under the influence of “drugs” as defined in this policy, the student must submit to drug testing as set forth in this policy. Additionally, any student who participates in a work site learning program, which is considered to be on-the-job training and which is a privilege, not a right, must submit to drug testing as set forth in this policy.

Any student who violates this policy will be subject to disciplinary action, up to and including termination from the student’s program. Any student who refuses to take a drug test pursuant to this policy will be deemed to have violated this policy against the use of drugs, and will be subject to disciplinary action as such, up to and including suspension.

The Board recognizes that students who have a substance abuse problem should be encouraged to seek professional assistance. A student who requests assistance shall be referred to a treatment facility or agency in the community if such facility or agency is available.
